2. Learned the skills written in the course description, and I often came away from office hours with a better sense of what to try in homework. Jake was very clear/helpful, and office hours with him helped me improve my skills/knowledge.
3. Solving PDE problems and intuition for class concepts.
4. Jake logically broke down my questions into simpler, more digestible subproblems and explained them with great attention to detail. He always emphasized the key points, making his office hours much easier to follow.
5. Real analysis, proof strategies, logical mathematical thinking
